

Position Description for Commercial Distributing Driver Helper (Seasonal)

Duties:

- **Delivery:** At each location, the driver helper will be required to accurately deliver products that correspond with that accounts invoice(s). When backing into loading area, the helper will get out of the truck and guide the driver. The driver helper will unload the cases of beer weighing up to 40 lbs., barrels of beer weighing up to 170 lbs. and move them to the storage area for the establishment. In many cases, the storage area is in a basement and or upstairs. The driver helper uses a wheeler to transport the products down/up the stairs into the storage area. Representing Commercial Distributing in a professional manner.
- **Removing Product:** Establishments that have empties will need the driver helper to remove all empties and place those on the truck to be taken back to the company warehouse.
- **Product Rotation:** When placing the new product in the storage area, the driver helper must place the older product in front of the newer product, which means moving the barrels and cases of older product around the storage area and placing the new product in the back or on the bottom.
- **Invoice and Payment:** The driver helper may be required to have the invoice signed by the person at the establishment checking in the order. The driver helper will be required to follow the policy regarding COD payments
- **End of the Day:** The driver helper will return along with the driver to the warehouse at the end of the run. The truck cab will be cleaned out. The driver helper will remove and store empty barrels or cases of beer returned by the customers in the proper locations in the warehouse and top off case pallets.
- **Drive:** Driver helper may be utilized as a backup driver (when needed).
- Performs other duties as assigned
